## Mayo SPCA Rehome A Pet

MAYO SPCA are appealing for a kind home for **SHADOW**, a female collie approximately 14 months old. SHADOW was brought into care from Blacksod, along with 3 puppies who were 8 weeks old. Apparently she had been abandoned whilst in pup and given birth in someones' shed, unfortunately other dogs in the area were attacking Shadow and her pups and they needed moving as soon as possible. Initially she was very afraid, but has really improved so much, still shy, but a very gentle, quiet and lovable dog who has really had a rough time. She loves being petted and is very affectionate and obedient. She does not have the courage or inclination to even think of doing anything to displease anyone. She is now in good physical condition, spayed, flea/worm treated and had her first vaccination. A home with a couple, person living alone, or family with

older children and a fairly quiet household would suit her best, she is totally undemanding and just accepts anything that comes her way. After everything she has been through she now deserves a kind understanding person to help restore her confidence.

If you can offer SHADOW or any of our other rescued animals a caring home then do please call:
