**Here's a reminder from  
Joe Togher**

Of course we can't promise that you'll never have an unwanted "surprise", but having your tyres checked regularly by experts will bring many benefits.  
Increase your tyre life.  
Improve fuel efficiency.  
Make your car safer on the road.  
So why not call into the team at Togher Tyres. What they don't know about rubber (and indeed noise thread design) isn't worth knowing. Of course, as Bridgestone dealers, they set high standards.  
But that's the point.
